

ARTHUR W. ZEMKE

Born June 16, 1897, Chicago, Ill.  
Tilden High School.

"The Flow of Heat Through Pipe Coverings."

A. S. M. E.

After being out of school for one year, Art has honored us by coming back to graduate with our class. He is our expert in "Heating Transmission Through Pipe Coverings." Although he did not mingle very much, his pleasing disposition has made him a host of friends.

## B. S. IN E. E.

THOMAS LOUIS ALBEE

Born March 10, 1901, Bellaire, Mich.  
Oak Park High School, Oak Park, Ill.

"The Relative Cost of Operating Steam and Electric Locomotives for Switching purposes on the St. Paul R. R. Industry Tracks."

B. Φ.; T. B. Π.; H. K. N.; Treas. H. K. N., 1921.

"Louie" is half the corporation of "Malwitz and Albee" which has been running for about a year and bids fair to run for quite a few years more. Besides being the leader of the Electricals as far as scholarship goes, "Louie" was treasurer of several organizations. The fact that he comes from Oak Park is the only thing we have against him. During the S. A. T. C. "Louie" was one of the few boys out of uniform because he was not old enough to be in one. We have no doubt but what he has a successful career before him.
