

ROY M. SINGER

Born September 14, 1897, Chicago.  
Carl Schurz High School.

"The Effect of Quantity of Mixing  
Water on the Strength of Various  
Portland Cement Mortars."

B. Φ.; Western Society of Engineers;  
Y. M. C. A.; Secretary Freshman  
Class; Junior Play; President W. S.  
E.; Instructor Summer Camp, 1920;  
Senior Class Picture Committee.

Roy is a born engineer. He is  
bound to succeed when he steps out to  
face the battles of life because while  
with us he has shown himself to be  
very conscientious about everything  
he does. Should you ever want any-  
thing done in his line and done right,  
ask Roy about it.

## B. S. IN CH. E.

HARRY WILLIAM AHLBECK

Born May 6, 1897, Chicago, Ill.

Evanston Township High School.

"Formation and Properties of Meta-  
Benzene Disulphonic Acid."

T. B. II.; Φ. Α. Υ.; Honor "A" Society;  
A. Ch. E. S.; American Chemical  
Society; Varsity Basketball, 1919-  
20, 1920-21.

Vice-President Honor "A" Society,  
1920-21. Treasurer A. Ch. E. S.,  
1920-21.

Harry was an all-around star  
among the senior chemicals, being  
among the first in scholarship as well  
as one of the mainstays of the basket-  
ball team. Whereas some chemicals  
do two years' work in three, Harry  
demonstrated how three could be done  
in two.

His studies were sometimes the least  
of his worries, especially when a good  
trouncing in basketball loomed forth.  
His name nearly always appeared in  
the writeup as well as the lineup, and  
there was a reason.
