

B. S. IN M. E.

WOODBIDGE W. BISSELL

Born June 13, 1899.
New Trier High School.
Delta Tau Delta.
A. S. M. E.

The proprietor and chief engineer of the Bissell Bus Line, Inc. Besides being a transportation engineer of the first rank, Woodbridge is a photographer of considerable fame, as can be seen by his power plant photographs, or if further evidence be needed he will produce his nucso-photographs. "Woody" can always see the bright side of life, whether it be the matter of getting some Hydraulics problems in, or staying up all night over the drawing board to finish a plate. We are sure that this perseverance, determination and good humor, will help him to advance in whatever work he may follow.

GILBERT V. BRADBURY

Born October 29, 1895.
Manual Training High School, Kansas City,
Missouri.
Delta Tau Delta; Tau Beta Pi; A. S. M. E.
President Tau Beta Pi, '22; President A. S.
M. E., '22.
Chairman, Cap and Gown Committee.

Old Einstein himself. When Brad gets his fingers firmly embedded in his hair and a pipe in his mouth no mere problem of higher mathematics or relativity can stand a ghost of a show. Bradbury's rise to fame and leadership among his classmates has been phenomenal because he returned to school in 1920 from the Army, a stranger, and in the short space of a year has become one of our prize satellites.
