

CLASSES

FRANK JAMES BURSIK

Chicago, June 15, 1901.
Mechanical Engineering.
Harrison Tech High.
A. S. M. E.

Frank is generally conceded to be our greatest authority and expert on practical trigonometry which in slang is called billiards. During his senior year his style was greatly cramped due to the extremely inconvenient location of the senior drafting room. However, we have reliable information that Frank is working out a design for a combination billiard table and drawing board.

F. A. CHAMBERS

Mechanical Engineering.
Attended St. Ignatius College.
Graduated Armour Academy, 1903.
Has been in City Smoke Inspector's office since 1907. Now chief Smoke Inspector of Chicago.
