

CLASSES

ELIAS GEORGEVICK

Mechanical Engineering.
Belgrade, Serbia, 1897.
Lane Technical High School.
A. S. M. E.

Elias is one of those quiet, steady fellows who tackles his work in an earnest and efficient manner. His pleasing personality and willingness to serve his fellow classmates has gained for him a host of friends. Elias' hobby is "swearing off" smoking, which he does regularly every day.

BORIS S. HERMAN

Russia, October 2, 1895.
Mechanical Engineering.
Lane Tech. High School.
Crane Junior College.
A. S. M. E.

Herman is another one of our "regular" fellows and, although he does not tell the world about it, whenever he has occasion to return to his domicile he invariably has a box or two of Swift's Premium or Armour's Veribest stowed away in his brief case.
