

CLASSES

WALTER WILLIAM PAQUE

Peoria, Illinois, August 28, 1898.

Mechanical Engineering.

Lane Tech. and Lake View High Schools.

Northwestern University.

A. S. M. E.; A. A. E.

Between getting the Profs to pronounce his name with the proper French accent and getting down in time for his 8:30 class, Walter has had a busy time. But not so busy as to keep him from making the friendship of the whole class.

P. A. REHNQUIST

Chicago, December 28, 1887.

Mechanical Engineering.

Fairmont High School, Fairmont, Minn.

Tau Beta Pi.

Rehnquist strongly denies that his initials stand for the Prince Albert tobacco he stokes into that ferocious looking pipe of his. He is one of our older and more serious members, having been absent from school for six years. P. A. has made an enviable scholastic record and stands high in the regard of his many friends at Armour.
