

CLASSES

LEO LESTER REIHMER

1829 South 48th Court, Cicero, Illinois.

Born November 16, 1897.

Lane Technical High School, 1914.

Humor Editor, Cycle, 1922; Secretary,
Junior A. S. M. E., 1921.

Sigma Kappa Delta; Tau Beta Pi.

By his high-pressure methods and inherent ability "Glory" has managed to complete the regular four-year course in three years. This accomplishment is further enhanced by his unusually high average. In spite of being humor editor of The Cycle, he actually does possess a keen wit. If Reihmer ever actually expects to become a successful engineer, he must abandon his corn-cob pipe for the more fashionable kind as used by engineers in the "movies."

EARL C. RIEGER

Chicago, May 8, 1899.

Mechanical Engineering.

Lane Tech. High.

Tau Beta Pi; Cor. Sec'y, Tau Beta Pi, 1922.

Interclass Basketball, 1920-21-22.

A. S. M. E., 1920-21-22.

Orchestra, 1922.

One would think that Earl was one of those quiet sort of fellows until he obtains a hammer or two and begins to mete out punishment to his xylophone. When not engaged in manufacturing music of the highest order he can be found at almost any hour of the night or day in the gas lab, teaching the motors to stand up on their crankshafts and beg for gasoline.

Rieger is a true blue gentleman, the kind that Armour is proud to graduate.
