

CLASSES

ROBERT P. BURNS

Born March 17, 1891, Chicago, Ill.
Chicago Technical College, American School
of Correspondence.

Electrical Engineering.

Eta Kappa Nu, Vice-President Freshman
Class, Pres. Sophomore Class.

Cycle Representative Senior Class.

Chairman A. I. E. E. 1921-22.

"Bobby" works to earn and earns to learn. When we look over his list of activities here at Armour, and then consider that he has a job and a wife to take care of besides, we wonder how he does it. The big question that now looms in Bobby's mind is, "What to be, a movie operator at eighty round men per week or to endure 'honorable poverty' as an engineer at ninety per month?" However, watch his stride after graduation. Burns is a born "promoter" and should soon head his own company.

NELS HAROLD ERLANDSON

Born Oct. 25, 1898, Chicago, Ill.

Electrical Engineering.

Bowen High School.

Phi Kappa Sigma; Eta Kappa Nu.

A. I. E. E.

Glee Club '21.

Class Basketball '21.

Senior Pin and Ring Committee.

Nels spent the first part of his college career at the University of Illinois and came to Armour at the close of the war. In his spare time he managed to talk and tinker with automobiles, and run conduit through the most inaccessible places in the Institute. Erlandson ranks among the hardest of workers and the jolliest of companions.
