

CLASSES

GEORGE HOWARD KELLEY

Born Dec. 26, 1900, Chicago, Ill.

Austin High School.

Electrical Engineering.

Tau Beta Pi; Eta Kappa Nu; Sphinx; A. I. E. E.; Armour Engineer; Class Secretary, 1920-21; Glee Club, 1919-20-21-22; Vice-President Armour Radio Association, 1921; Shifters; Interclass Basketball, 1919; Corresponding Secretary Tau Beta Pi, 1921.

George was one of the most quiet (?) and unassuming (?) chaps that ever attended Armour. He has often complained to his intimate friends that the unnecessary noise in the library and classrooms has seriously hindered his tireless researches in Steinmetz, Heaviside and Karapetoff. His scholastic achievements, however, have not in any way hindered his school "activities," in which he took a very active interest. G. H. K. was a firm believer in the old saying "Let George do it," at least in theory if not in practice.

RALPH S. KENRICK

Born April 17, 1900, Milwaukee, Wis.

Electrical Engineering.

Oak Park and River Forest High Schools.

Tau Beta Pi; Eta Kappa Nu; Sphinx; Shifters; A. R. A. 2, 3, 4; Secretary (3); Recording Secretary, Tau Beta Pi, 1921; A. I. E. E., 3, 4.

Managing Editor, Armour Engineer.

Thinking twice in succession would give some people a headache, but not so with our unassuming friend from the "Wilds of America." When not translating "Lawrence" into English for some less fortunate electrical, Ralph is to be found chasing up articles for the Armour Engineer. Always willing to help in anything worth helping, and with an ever present smile, Ralph may feel assured that he has won the everlasting friendship of all his fellow students.
