

THOMAS MICHELS

Born September 16, 1899.

Sigma Kappa Delta; Tau Beta Pi.

"Unfortunate is he who hath not music in his soul." In Tom we have the lover of music; the keen student of engineering; one who appreciates art and good literature. What an enviable combination! Add to these a sense of humor, a sunny disposition, an ever-present smile and a thatch of red hair and we have Tom. How can a man like this do anything but go out into the world and "knock 'em dead?" So, go to it, "Mike," we're all with you.

PARKER JAMES MONTAGUE

Born May 1, 1896, Brodhead, Wisconsin.

Hyde Park High School, Chicago.

Scott High School, Toledo, Ohio.

College: Denison University, Ohio.

Tau Beta Pi; Phi Delta Theta.

President, Tau Beta Pi, 1921.

Here is "Monty," one-half of the partnership of "Monty and Mike." If it's the small matter of the analysis of a pin connected truss or a concrete arch, just let him see it and he'll tell you "why is which." He hasn't been with us for all four years as he spent part of the time at Denison University in Ohio, but he certainly is a credit to A. I. T. His keen sense of analysis, his ready wit, and his pleasing personality all combine toward making him a real engineer.
