

CLASSES

CLARENCE A. HERBST

Born April 2, 1900, Chicago, Illinois.

Lake View High School.

Chemical Engineering.

Sigma Kappa Delta; A. Ch. E. S. Sergeant-at Arms, 1919-20; Social Committee, 1920-21; Glee Club, 1920-21; Secretary, 1921-22; Cycle Departmental Editor, 1920-21.

No use, girls, Clarence is "hooked." You would not imagine that such a person would be permitted to run around loose very long by the fair sex. Let that rest, however. We brighten up perceptibly when we espie Clarence's tallness approaching us; we have learned to expect his charming wit and bright humor. When Clarence pulls off something particularly clever and looks at you from the corner of his laughing eyes, you cannot help liking him. Clarence is an avid worker and holds up his end of the Herbst combination. Combination is a poor word because their work is entirely individual.

HENRY WILLIAM HERBST

Born April 5, 1902, Chicago, Illinois.

Lake View High School.

Chemical Engineering.

Sigma Kappa Delta; Tau Beta Pi; Phi Lambda Upsilon.

Treasurer 1918-19; Picture Committee, 1921-22; Interclass Basketball, 1919-22.

Without much exertion Henry seems to wade through the most difficult problems and abstract theories and get his answers correct every time. One of Henry's qualities which is rare in a college student is that of doing his work at once and not letting it drag. His duties in school do not prevent Henry from studying his violin, which he plays exceedingly well. With his brother Clarence to accompany him on the piano, and Henry on the violin, I'll wager the Herbst family does not starve for lack of good music.
