Outside of being president of the gradu-
ating class and of every conceivable organi-
zation that it is possible to be president of,
Warren has nothing to do. Oh yes, we
forgot to mention that besides his usual
course, which is quite heavy, he has chosen
to take up a number of electives to ease his
work along (?) With his most engaging
personality and straightforwardness, he has
won a high place in the hearts of his class-
mates.

BERNARD ROSENZWEIG

Born October 14, 1899, Chicago, Illinois.

Chemical Engineering.

Englewood High School.

Phi Lambda Upsilon; A. Ch. E. S.

Rosy is just Rosy. One cannot pick out
any particular quality which would charac-
terize him, and yet one has to see him just
once to like him immensely. He is full of
good humor and hard work. He possesses
a great deal of that rare thing, "common
sense," and that is one of the qualities that
has helped him progress.
