

CLASSES

LOUIS A. SPIELMAN

Russia, December 9, 1897.

Chemical Engineering.

Lane Tech and Junior College.

A. Ch. E. S.

Where there is Spielman, there is Slobod, and where there is Slobod there is Spielman. These two are almost inseparable. Spielman is always full of humor, some of which Slobod has to bear with stoic endurance. Besides, Spielman is a very bright chap as his report will bear witness, being generously sprinkled with A's and B's.
