

ATHLETICS

GILBERTSON

"Gill" did most of the heavy mound work last spring. His steel arm, backed by his good judgment, led the team to victory many times. His highest speed was four games won in four days, but the best thing about this twirler is that he plays again this year.

DESMOND

An Irishman who can tickle the ivories, roll a mean pair of bones, and still makes a good ball player. He practically ruined his arm the previous year but "came back" in the outfield with a wonderful game. He was especially good in squeeze plays—both kinds.

ANDERSON

Andy was one of the fastest men that ever donned a catcher's mit for the Varsity. He could throw like Ray Schalk and never signaled for the wrong ball. He graduated after last season's work.
