This organization provides a gathering place and rest room for members of the faculty to recuperate from their strenuous endeavors to teach the young idea to sprout. The student body rarely gets a glimpse of this sanctum sanctorum. There the professors can drop their stern dignity and enjoy themselves without fear of losing their hold on the students.

It is to be expected that the atmosphere of the club would be highly intellectual, and so it is. The prohibition question is settled daily. Momentous problems such as where the best fishing exists, how to make a successful masse shot, and how best to render aid to impoverished farmers arouse heated discussions, cause many a billiard game to be lost, and fill the air with brilliant comments and dense tobacco smoke.

On the other hand, it is not supposed to be known that this is where notes are compared on notorious classroom characters and thumbs up or down decided for such individuals.

The event of the year was the fall smoker and entertainment that the club held in its quarters. A large gathering showed its appreciation of the events of the evening. Student talent contributed a large part in making this evening the success that it was.
