

## *Pump It Full and Forget It*

ONCE a month or so, stick your Dunn-Pen into the ink and pump it full with the Little Red Pump-Handle. Don't bother to clean it—it does that for itself, while you are filling it.

There's no rubber sac in the Dunn-Pen—that's why it holds several times more ink than any other self-filler of the same size. It's as full of ink as an egg is full of meat.
