

Orchestra

At the beginning of the school year Professor Phalen took charge of the orchestra with the hope of developing it so that it could not only play at assemblies but also accompany the Glee Club on all concerts. This was done with marked success and many have enjoyed the combined orchestral and vocal concerts.

At school the orchestra is not only a source of entertainment but of instruction as well since through its direction Armour men have come to learn their songs. At assemblies the orchestra alternates with the band, and its popularity is unquestioned.

The orchestra appeared in the Annual Home Concert, and rendered a pleasing program which differed materially from the last concert. This was made possible by the larger organization and the punctuality of the members at the rehearsals.
