

ENGINEERING SOCIETIES

F. P. E. S.

The Fire Protection Engineering Society is one of the largest and most active societies at Armour. The field of Fire Protection Engineering is still somewhat new and unique, but it is gaining rapidly in popularity. The large membership in itself indicates the enthusiasm and interest shown by the undergraduate body.

The society had the opportunity of hearing some very splendid speakers during the past year. Mr. Brailsford of the Underwriters Laboratory gave us a very interesting talk upon the subject of burglary prevention devices; Dr. Campbell of the Armour faculty discussed a rather timely issue, "Life Insurance Actuary." Other speakers of concern were: Chief McAuliff of the Fire Insurance Patrol, Mr. Tuttle of the Insurance Company of North America, Mr. McCollough of the Lightning Rod Department of The Underwriter's Laboratories, Mr. J. R. Wilson, chief engineer of Marsh and McLennan, and Mr. George Brown, a prominent fire insurance broker.

Herbst, Schneider, Gedelman, Skaer, Lauer, Davis, Reifler, Snediker.
Miller, Swinson, Osborne, Andrews, Tingley, Johnson, H. Johnson, Kopecky, Fairbanks.
Hubbell, Price, Quinby, McLaren, Prof. Finnegan, Goorskey, Peterson, Pate, Larson.
Hommes, Castle, Osgood, Hatch, Smethells, Greene, Koge.
