

SOCIAL FRATERNITIES

Rho Delta Rho

The Rho Delta Rho Fraternity was first organized by several students at the Armour Institute of Technology and received its State Charter in 1919.

During the latter part of 1919, application was made to the Executive Council at Armour Institute of Technology for official recognition, with the result that a Charter was granted in February 1920.

Before this time members had formed a strong bond of friendship and co-operation, which is the essential foundation for a college fraternity. It is therefore self-evident that the already existing fraternity spirit at the time of official recognition was truly a firm starting foundation. All the members became greatly enthused and set to work with such zeal and earnestness that greater strength came, not only in an increased membership, but also in a stronger bond of friendship which was forming.

The active and alumni chapter membership of 15 and 50 respectively, show that our record of progress is truly one to be proud of. It is our greatest desire to not only maintain our present strides of progress, but to keep up that spirit of friendship, love and co-operation which is truly the outstanding feature of a college fraternity.
