

ATHLETICS

AUGUSTINE '27—Forward and Guard.

"Augie" was used at both the forward and guard positions this season. Many times he was sent in to inject fight into the team. While playing guard he broke up many a play, and took the ball down the floor to register many a marker. Augie was all over the floor, but also back in the guard position when needed. He will be back next year and should be going fine.

W. DOWNES '26—Forward and Center.

"Billie" our little forward, very fast, a whirlwind we might say, seemed to be of untiring physical strength. He did not try for the team except in his last year, but, Oh Boy, some player. Billie has that factor that pertains to all real athletes, that of keeping his head. The best of luck to you, old top.

HELLGREN '28—Center.

"Red" they call him, for short, and it must be that he has red hair. He played the pivot position with due credit; and seemed to have mastered the art of placing the tip-off, which resulted in many a basket. Red's specialty was his one handed hook shot from the side of the floor, at which he had become quite efficient. Red will be back next year and should be in rare form.
