

## HONORARY FRATERNITIES

## Armour Chapter of Chi Epsilon

Chi Epsilon, a national honorary civil engineering fraternity, was founded at the University of Illinois in 1922. The requisites for membership in the fraternity are scholarship, sociability, practicability, and character. The purpose of the fraternity is to honor those civil engineering students who deserve recognition for their accomplishments at college. Members are chosen from the upper third of the Junior and Senior classes.

The fall initiation banquet was held at the Brevoort Hotel on December 8, 1926. At this time the fraternity had the great pleasure of initiating Prof. Philip C. Huntly as an honorary member of Chi Epsilon. Four members of the Senior class were admitted to the fraternity at the same time.
