

JOHN HOMMES

THE ARMOUR TECH NEWS

The *Armour Tech News*, having been started on somewhat of a probationary basis which was to give it a chance to demonstrate in actuality some of the promises made for it by its promoters, has now been operating well over a year. Its staff has endeavored to the best of its ability to present a weekly publication which would approach the high standards demanded by the exacting reading public to which it caters, the students and faculty of Armour Tech.

In this endeavor the staff has succeeded passably well, but it realizes, more so than the readers themselves, that it has far from attained the ultimate. Many mistakes, serious, and less serious, have crept into its work. However, it holds that such mistakes are not because of any inherent defect in the idea of a school newspaper at this college, but are simply occasioned by the fact that the staff has been new and has worked without precedent.

The *Armour Tech News* is now a "going concern." It has proven its right to existence by refuting all arguments held out against it when it was first proposed. The student body has demonstrated that it wants a newspaper, since it has subscribed to the extent of about 70 per cent for the present semester. The faculty has always supported it 100 per cent. The present staff of under-classmen, during

the several weeks just passed, has demonstrated that it is capable of putting out the News without aid from the graduating seniors. All indications point to an exceedingly prosperous future for this newest of Tech's publications.
