Mitchell J. Lamka
Charles T. Link
Fred T. Munch
Richard H. Stevenson
Frank F. Strassenburg

Students are elected to Pi Tau Sigma from the upper half of the senior class and the upper quarter of the junior class in the fall. They are also elected from the upper third of the junior class in the spring of the year. Although a high quality of scholarship is essential to membership, other qualities such as character, loyalty, personality, leadership, and college activity are also required.

Any chapter may also confer a key upon technical graduates engaged in the engineering profession. Honorary membership may also be conferred upon associate or assistant professors in the Mechanical Engineering Department.
