Twice each year the members scan the roll of the musical clubs and select therefrom those seniors and juniors who have been prominent in furthering the musical cause. Before initiation into the fraternity each pledge is required to prepare a paper, requiring research in the musical world, which is so seldom touched by the engineering student.

As the organization is a musical fraternity there is no scholarship requirement which a man must attain before he may be pledged to Pi Nu Epsilon. However, he must pass a rigid examination of his musical knowledge before he may be pledged.
