

ALEXANDER KULPAK

Kulpak was a valuable man in the high jumping events. He worked hard in this capacity which is proven by his record. Kulpak could be depended on when Armour needed a few extra points. His excellent co-operation with the several other high jumpers was always great.

DONALD NEAL

Neal did exceptionally good work for the team as a dash man and a relay man. His fine co-operation with the relay team won many a point for Armour although his best work was in the dashes. Neal will be with us again next year working hard as usual.
