The Inter-honorary Fraternity council is composed of a representative from each of the honorary fraternities; Tau Beta Pi, the departmental honoraries, Sphinx and Pi Nu Epsilon. This organization was founded in the fall of 1927 for the purpose of providing a link or common meeting place for the honorary fraternities and serves as a deciding point from which they act as a single unit in any common interest.

The Council has charge of two major social

events. The Annual Honorary Banquet is held during the first semester and the Annual Honorary Dance during the second semester of the college year.

Although the existence of the Interhonorary Fraternity Council has been comparatively short, it has fulfilled its original purpose for organization. It has brought about a closer cooperation between the various honoraries and has earned and received the support and attendance of the alumni.
