

**John
J.
Schommer**

A TRIBUTE

The athletic staff at Armour Tech is a small one considering the large number of activities under its supervision and the responsibilities of its director are both heavy and numerous. John J. Schommer, as Athletic Director, has served Armour well and a large share of the credit for Armour's excellent athletic standing in the Chicago area belongs to him. His great experience and wise counsel have guided the Armour Tech Student Association in such a manner that it has not faltered in its progress.

John J. Schommer is the moving spirit behind the Armour Relays, that athletic extravaganza which is the highlight of the athletic year at Armour and one of the highlights of the athletic year in Chicago. He has worked unceasingly to raise this event to one of the most important track carnivals in the middle west. The 1936 Armour Relays were selected as Olympic Regional Tryouts and did much to bring the name of Armour to prominence in athletic circles.

Armour Institute is indeed fortunate in having such a man at the head of its athletic staff as John J. Schommer.
