#### Second Semester

William H. Savage  
William J. Laise  
Donald C. Graham  
Eugene A. Heike  
Albert N. Scrieber  
Robert Simons  
John C. Scott  
Martin L. Holland  
Cyril L. DuSell

The Interfraternity Council of Armour Institute of Technology was organized for the express purpose of promoting Social Fraternities at Armour so that, by unified effort, they could be of greater service to the Institute as well as to each other. The close of every school year since its inception has shown greater accomplishment of this purpose.

Through the efforts of the Council last year the Faculty Committee on Fraternity Relations actively came into the Fraternity picture on this Campus, showing a great increase in interest on the part of the Institute Administration. With these bodies functioning together, the Social Fraternities portend to be the strongest and most dynamic force contributing to the men's moral, spiritual, and social development commensurate with the intellectual training supplied to them by the Institute.
