The purpose of the Interhonorary Council is to create and foster a spirit of friendship and cooperation between the members of the honorary organizations at Armour Institute of Technology. As in the past, a dance and banquet are the main affairs which serve to fulfill this purpose.

The dance held in May of 1937 was attended by all of the honorary men at Armour. Pierson Thal's music furnished the melodies to which the gay couples danced at the Chicago Beach Hotel. The banquet held at the Swedish Club on March 15, 1938 was a very successful affair. Movies, instead of speakers furnished the after-dinner entertainment.

The presidents of the various honoraries during the fall term comprise the council, which is presided over by the president of Tau Beta Pi each year.
