*Alpha  
Gamma  
Chapter  
1922*

Theta Xi Fraternity was founded at Rensselaer Polytechnic Institute, on April 29, 1846, when eight students formally took the oath of initiation.

Several sections of the constitution had been construed in the past as placing limitations upon membership, and for many years membership actually was confined to students of engineering and science. In the early twenties, however, there had been a gradual conservative trend toward generalization, and chapters were placed in colleges other than technical schools. The present chapter roll includes thirty-three active chapters located throughout the country.

Alpha Gamma chapter of Theta Xi Fraternity was formerly the Omega Lambda local fraternity at Armour Institute. In the year 1921 they desired to become national, and prepared a petition to Theta Xi. This was submitted at the following convention, and in February, 1922, they were granted a charter, thus marking the birth of Alpha Gamma Chapter of Theta Xi.
