Leon Smith	George J. Sorokin	Leo Stoolman

HISTORY

In the last months of the year 1918, several students at Armour Institute of Technology became innoculated with the true spirit of college fraternalism and laid plans for a permanent organization.

On the 27th day of August, 1919, Rho Delta Rho Fraternity was chartered in the State of Illinois and a formal petition for recognition as a local fraternity was prepared. The petition was accepted, and the fraternity became established on the campus in February, 1920, with an initial membership of ten students. The membership has steadily increased, there being more than twice as many active members at present.

The bonds of friendship and loyalty which were cherished by our founders is evidence by our closely united alumni chapter. The alumni chapter, which meets regularly once a month, has enrolled a good majority of the Armour Rho Delta graduates, and is justly proud of its record of progress, friendship, loyalty, and co-operation.
