

ARCHITECTURE

gressive spirit which always exists about Armour. Advancements have been made in research, improvements have been made in the curriculum, and the student enrollment has been greater than ever before.

The staff of the CYCLE of '39 has attempted to assemble a permanent record of the achievements which have been made this year.

It is hoped that this pictorial and editorial description of the year's events and activities will find a preferred place in the library of each and every TECHAWK.
