

TECH RELAYS

College teams also did their part to lift the Tech games to an even higher level by establishing two new marks. Wagner of North Central covered the 440 in the college division in :49.4 to lower the old mark by 0.6 seconds. In the two mile relay of the college division the Michigan Normal team stepped out to a record time of 8:06.5.

Team honors went to Michigan State Normal for scoring three firsts, one tie for first, and three seconds in the college division. In the same division North Central and Grinnell took second and third places respectively.

All in all, the Eleventh Relays was a credit to Armour and to all who competed in its events. Next year the stars will go to even greater performances and, in time, the Tech Relays will be the track classic of the nation.
