IPRO 308: motoPRO

moto PRO

IPRO It takes a team!
INTERPROFESSIONAL PROJECTS PROGRAM

Background

I don't feel so good

Motorcycles don't talk back to riders

Sensors may gauge bike's performance but not biker's

Most riders' training ends once they get licensed

moto PRO

IPRO It takes a team!
INTERPROFESSIONAL PROJECTS PROGRAM

Our Team

Mission: To research technologies, collaborate with community and build foundation for future IPROs

Grouping: Fluid team structure, no permanent divisions

Task management and scheduling: Small, task-oriented groups

Monitoring and adaptability: Self-monitored, time-sensitive individual and paired projects

OUR TEAM

and

Professor Alon Friedman

Director of Information Technology
IIT Institute of Design

Motorcycle Safety Foundation (MSF) Instructor
All-weather motorcycle rider (he owns 3!)

Project work

- History
- Data collection and conclusions
- Value-addition

Project work

- Impacts, risks and challenges
- Ethics
- Continuity

moto PRO

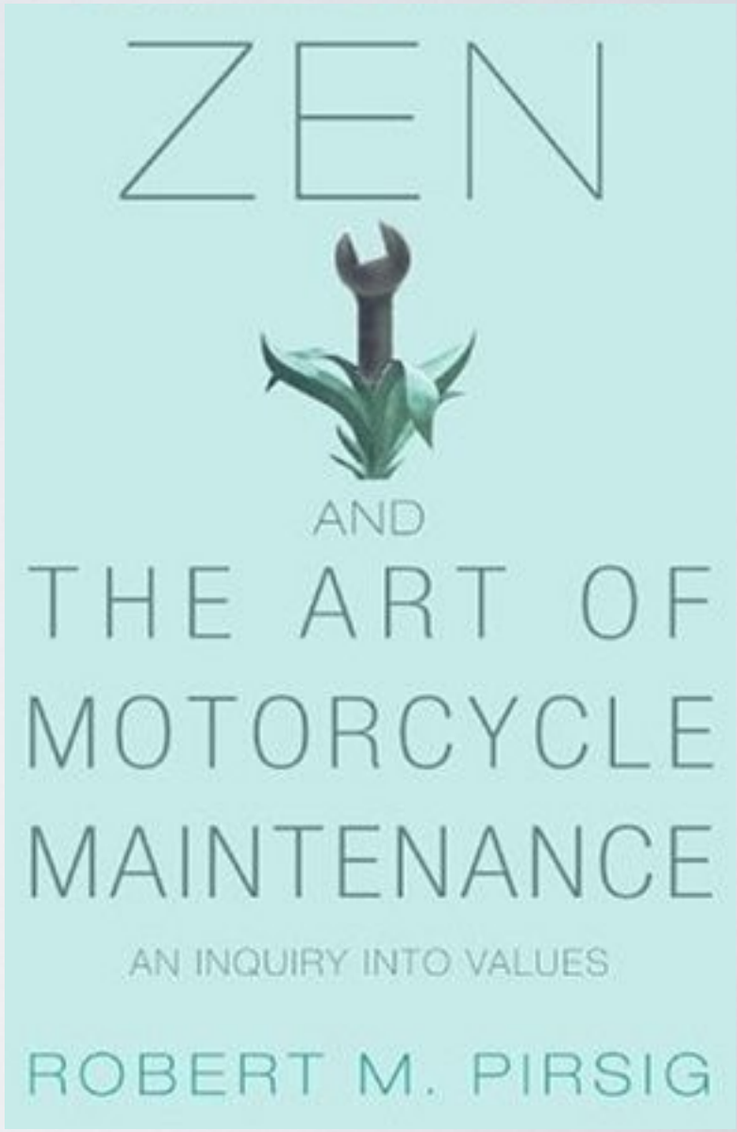
IPRO It takes a team!
INTERPROFESSIONAL PROJECTS PROGRAM

Problem solving techniques

Research

Methods

Innovations



Accomplishments

- Familiarization with technology and community
- Interview data
- Initial prototype
