Global Warming Outreach

Team

Solar & Wind Power

Mark Reibel & Jonathan Lockridge

Fossil & Bio Fuels

Marc Huh & Ashley Hodgson

Carbon Dioxide

Melissa Voss & Nim Patel

Polar Ice Caps

Satchel Erramilli & Sara Wilde

Problems

People are bombarded with different facts about global warming, reputable or not, and don't stop to check their sources

People believe that we won't see the effects of global warming in our lifetime.

New technologies or information come up everyday, and people are either misinformed or not up-to-date

Goals

- 1. To inform our audience with correct current information from credible sources**
- 2. To increase awareness by presenting to larger and diverse audiences**
- 3. To incorporate interesting demonstrations into the presentation**

Progress

1. Updated presentations
2. IRB Certifications & Proposal
3. Put together a tentative schedule for outreach presentations
4. Creating an informational website with links to our sources and other useful information

Obstacles

Current

- Lack of outreach appointments
- Gaining access to Target audiences
- Each audience has different needs.

Future

- Some locations require traveling long distances
- Evaluating the effectiveness of presentations.

What Lies Ahead

Current

- Finding more contacts willing to host a presentation
- Tailoring each presentation towards each group
- Making our presentations informational and memorable

Future

- Transportation and availability for presentations outside of the city
- Analyze the results of our surveys to evaluate our method of presentation.
