

**Objective :** Design and market a multi-purpose structure that can be **simply** and **affordably constructed** to assist victims of natural disasters.

**Conclusion :** IPRO 324 **successfully** met its objectives by designing a multi-purpose structure that will be **inexpensive** and **easily constructed**.

IRO 324 also **researched** several potential methods to **fund** the project, and **created** media to provide potential clients and investors with sufficient information about the project.

**Future Tasks :** IPRO 324 will be following up the process of **establishing** a non profit organization to continue its goals **assisting** current client with the **funding** and **construction** of the structure **researching** potential future clients.
