TKS

TEACHER KNOWLEDGE SHARE
www.teacherknowledgeshare.com

What is TKS?

A **professional** online network for K-12 teachers providing university approved **lesson plans**, **discussion forums** and listed **events**

Who benefits from TKS?

Any **K-12 teacher, administrator** or **counselor** who is looking for a **time-saving** tool and an opportunity to establish important **professional contacts**

Why use TKS?

TKS is **easy** to use and **saves time** by providing **helpful tools** which ease the professional burden in teachers' lives. In addition TKS is a **great resource** for teachers looking for new, innovative **ideas** as well as a forum for general **concerns** and **questions**

Some of TKS' features:

Lesson Plans - Browse through an extensive variety of university developed and proven lesson plans or upload your own

Rating System - Identifies the most popular and highly rated lesson plans as well as top contributing users

Calendar - Lists important events and meetings and allows users to add their own

Groups - Find like-minded colleagues, establish important contacts and discuss any topic of interest

Recent Posts - Recieve updates of the most recent uploads as well as the latest group activity

Background

Teacher Knowledge Share was developed by IPRO 320 at Illinois Institute of Technology. The objective was to create an online resource that would allow teachers throughout the nation to communicate and share lesson plans and ideas, thereby enhancing the quality of education K-12 students are receiving.

The current goal is to achieve a self-sustaining online community where individual teachers as well as whole schools can learn from one another by sharing resources and effective practices. We believe that TKS has the potential to become an essential tool and time-saver in the life of any teacher.
