Chicago Regional Bridge

102

A person is working on a mechanical experiment setup. The setup includes a metal frame with a horizontal beam and two vertical supports. A wooden block is mounted on the beam, and a thin rod is attached to it. A person is holding the rod and adjusting its position. A sign with the number 103 is attached to the frame. The background is dark, and the scene is lit with a warm, orange light.

**103**

A person wearing a dark shirt is operating a mechanical testing rig. The rig consists of a metal frame with two vertical supports. A wooden truss model is suspended between the supports. A white sign with the number 104 is attached to the front of the rig. The person's hands are visible at the bottom of the frame, and their face is partially visible through the top of the frame. The background is dark, and the lighting is focused on the rig and the person.

A person with long brown hair and glasses is working on a wooden lattice structure. They are wearing a grey sweater and are focused on their task. The structure is made of thin wooden strips and is being held in place by a black metal frame. In the foreground, a large white clipboard with the number 211 is visible. The background is dark, and there are some other people and equipment visible in the distance.
