A student wearing glasses and a red and white striped shirt is working on a physics experiment inside a light box. The box is illuminated by three bright lights. The student is using a tool to adjust a small white object on a wooden bridge-like structure. A clipboard with the number 23 is attached to the front of the box.

239

A man with short dark hair, wearing a dark long-sleeved shirt, is focused on working on a small, intricate model made of thin sticks or wire. He is inside a booth with a white frame and a black top. The booth is supported by two green vertical poles. A white sign with the number 240 is attached to the right pole. The background is dark, and the scene is lit by a warm, orange light source, possibly a lamp or a fire, which is visible on the left side of the booth.
